

FDI 2015 **BANGKOK**

Annual World Dental Congress

22 - 25 September 2015 - Bangkok Thailand

Dentistry in the 21st Century

PRELIMINARY PROGRAMME

www.fdi2015bangkok.org
www.fdiworldental.org

introduction

We are very excited that the FDI Annual World Dental Congress is taking place in 2015 for the first time in Thailand. The country is in the process of becoming a major venue for debate on key issues such as oral health and population ageing, caries control and prevention and innovative practices such as minimal intervention dentistry.

The FDI AWDC raises the bar by bringing a new international perspective to regional and national debate on oral health, dental practice and health politics. It provides a huge opportunity to share knowledge and experience with dental colleagues from every continent, to challenge our own ideas and widen our perception. This international perception is even more essential in a world of migration of dentists and dental patients.

Thailand is also fast gaining an enviable reputation for the quality of its oral care, backed by its Universal Coverage programme, implemented in 2002, which gives them better access to health services, including dental services. Furthermore, rising awareness of dental and oral health and hygiene, a growing population and increasing per capita incomes will ensure a constant increase in demand for dental products and services.

The World Dental Exhibition has been an integral part of the FDI Annual World Dental Congress ever since 1929, when an Oral Health Exhibition first took place in association with the 23rd FDI Annual Session in Utrecht (Netherlands). Dental exhibitions play an essential role for dentists and other oral health practitioners: where else but at a dental exhibition can they find and examine the latest in technology and products to recommend to patients?

With its wide choice of hotels and other accommodation, a very hospitable local population, superb cuisine and entertainment and wealth of cultural opportunities, Bangkok is a prime destination for the discerning traveller. Built in 1997, the Bangkok International Trade & Exhibition Center (BITEC) is today a highly acclaimed exhibition venue, accessible from Bangkok itself by the renowned Skytrain.

After our 100th anniversary Hong Kong in 2012, this is the second time in three years that FDI, the international voice of dentistry, has demonstrated its confidence in the Asia Pacific region as an area of growth and development in the field of dentistry and the dental sector.

Together, FDI and the Dental Association of Thailand are planning a uniquely relevant and, we hope, enjoyable AWDC. We look forward to welcoming you the single most significant dental event in Asia-Pacific in 2015.

FDI World Dental Federation is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between FDI World Dental Federation and the Dental Association of Thailand (DAT). FDI designates this activity for maximum 24 continuing education credits per participant.

Session types

Lectures	See topics on pages Provisional scientific programme
Meet the expert sessions	
Year-in-Review	Dental research
Hot Topic sessions	Complications with Dental Bonding - Direct Restorative materials Practice management
Hands-on workshops*	Microscope and ultrasonic in Endodontics - Aesthetic restorations

ADA CERP® | Continuing Education
Recognition Program

FDI World Dental Federation is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between FDI World Dental Federation and the Dental Association of Thailand (DAT).

Delegates who have registered for the Congress are eligible to receive continuing education points by attending scientific sessions throughout the congress. Certificates will be available for download after the congress.

Number of points available:

Main scientific sessions and Meet the experts: 1 credit per hour of lecture, max 6 per day

Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp

Registration and abstract submission

Registration deadlines

Early Bird : 15th June 2015

Pre-registration : 15th August 2015

For Registration assistance, contact:

THE DENTAL ASSOCIATION OF THAILAND

71 Ladplaw 95 Wangthonglang

Bangkok 10310, Thailand.

Tel: +662 539 4748

Fax: +662 514 1100

Website :

of form and function
The aesthetic zone: understanding
the boundaries for predictable
success

Marcelo Kreiner
(Uruguay)

Life-threatening Orofacial
Pains and TMD - Early recognition
and differential diagnosis

Ivo Krejci
(Switzerland)

Digital dentistry with composite

Chatchai Kunavisarut
(Thailand)

Dental implant for the 21st Century

Chalernpol Leevailoj
(Thailand)

Anterior esthetic restorations

Yiming Li
(Japan)

Biocompatibility of Dental Materials

Pairoj Linsuwanont
(Thailand)

Microscope in Endodontics

Eric JW Liou
(Taiwan)

Non-compliant orthodontic
appliances for 3-D control
of occlusal plane

Speakers and topics

William Maixner
(USA)

Unraveling Complex Persistent Pain Conditions - A multidisciplinary approach

Georg Meyer
(Germany)

Biological and Medical Properties of New and Traditional Filling Materials - a Critical Evaluation

Ibrahim Nasseh
(Libanon)

Contribution of the dentist in detection of systemic diseases

Stanley F. Malamed
(USA)

Is the Mandibular Block Passé? Medical Emergencies in Dental Practice

Hideo Miyazaki
(Japan)

Modern Lifestyle, Diet and Oral Health: Lifestyle factors and oral health in the elderly

Peter Ngan
(USA)

Early Orthodontic/Orthopedic Treatment

Somchai Manopatanakul
(Thailand)

Future Orthodontics: I Got an App for That!

Shinya Murakami
(Japan)

New treatments to accelerate periodontal tissue regeneration

Hien Ngo
(Kuwait)

Minimal Intervention and Minimally Invasive Dentistry

Alexandre Mersel
(Israel)

Oral rehabilitation for the edentate elderly - A bio-ethic Approach

Sudeshni Naidoo
(South Africa)

Bioethical aspects of care in oral health

Hiroshi Ogawa
(Switzerland)

Dates

22-25 September 2015

Languages

The official congress language is English.

Invitation letter

Invitation letter can be downloaded from your registration page on the website. It will be provided after your registration complete.

Certificate of attendance

All congress participants will be issued a certificate of attendance.

You can collect your certificates from the registration desk from **25th September 2015**

Name badge

All participants are kindly advised to wear their name badges at all times during the congress. Entrance to scientific sessions will be through a barcode system printed on your name badge.

Registration desk

The congress registration desk will be at the entrance of the congress center. It will be open from 08.00 to 17.00 (8 a.m. to 5 p.m.) during the congress dates.

Exhibition area

An industrial exhibition will be available throughout the congress. The exhibition will take place on the ground floor of the BITEC and will be open during congress hours.

FDI Bangkok 2015 Exhibition

BITEC Bangkok International Trade and Exhibition Centre

BITEC's world-class, state-of-the-art facilities coupled with our comprehensive services encompass the best of traditional Thai warmth and hospitality.

Over 5,000 m² of exhibition space

Over 5,000 m² of exhibition space on the ground floor is being made available to spotlight the very latest cutting-edge developments in dental technology and oral care from local and regional suppliers as well as suppliers from around the world.

Opening hours

22-25 September

9 a.m. - 5 p.m.

More about the FDI Exhibition at www.fdi2015bangkok.org

Accommodation

To make your hotel reservation please login to Congress registration and Accommodation system at www.fdi2015.com.

The recommended hotels are mostly along the skytrain (BTS) accommodation, it is really convenience for participants to travel by BTS in Bangkok. The Accommodation charge for 5 stars is around THB 6,500 - 8,000 (USD 200 - 250), 4 stars is around THB 5,500 - 7,000 (USD 170 - 220), and 3 stars is around THB 3,000 - 4,500 (USD 90 - 140). Head quarter hotel: InterContinental Hotel and Holiday Inn.

Bangkok is well-served by public transportation. Airport Link provides frequent services between the airport and the city is by. All major destinations in the city are served by Skytrain (BTS) and the subway system (MRT). As the traffic in Bangkok is very heavy especially during 7 am - 9 am and 3 pm - 7 pm., the modern transportation is a good option to travel during the peak hour. It will spend around 3 - 5 min. in each station. So, it takes only about 30 min. from InterContinental Hotel (Head Quarter) to BITEC. BITEC (Venue) is located near BTS Bang Na station. All FDI registrants will receive complimentary daily BTS card. You can collect it at the registration counter at BITEC.

Bangkok, Thailand

Bangkok

Bangkok became the capital of Thailand in 1782, when the royal court relocated from the city of Ayutthaya, which had been left in ruins following years of conflict with the Burmese. After settling temporarily on the western banks of the Chao Phraya River in Thonburi, the capital moved again, this time to the area of Rattanakosin in present-day Bangkok. Almost entirely surrounded by water, the new location was easier to defend against potential attacks. The final move marked the beginning of the Chakri Dynasty. Rama I named the new capital Krung Thep (City of Angels) in reference to the past glories of Ayutthaya, and he ordered the construction of two of the Kingdom's most illustrious religious monuments, Wat Phra Kaew and the Grand Palace, to consolidate the new capital's ruling status.

Greater Bangkok now covers an area of 7,761.50 km² and is home to some 12 million residents. Ratanakosin remains the spiritual center of the city, graced by the dazzling splendor of the Grand Palace, Wat Phra Kaew and nearby Wat Pho.

Modern downtown Bangkok stretches southeast of Ratanakosin and looks very much like many

other Southeast Asian capitals, with gleaming skyscrapers, deluxe apartment projects and lots of snarled traffic. The core of the new city encompasses the Sathorn and Silom districts and Sukhumvit Road, which includes upmarket shopping plazas and leafy public parks. These major downtown neighborhoods are connected by the BTS Skytrain and the MRT subway systems. These gradually expanding public transportation networks, with their bright, snaking trains carrying excited tourists and weary commuters alike, have not only helped relieve the city's notorious traffic congestion and pollution, but given this City of Angels a modern, 21st century feel.

Thai rarely call their capital 'Bangkok' but instead refer to it as 'Krung Thep' (City of Angels), an abbreviated version of the full ceremonial and official name. This can be translated as 'The city of angels, the great city, the residence of the Emerald Buddha, the impregnable city (of Ayutthaya) of God Intra, the grand capital of the world endowed with nine precious gems, the happy city, abounding in an enormous Royal Palace that resembles the heavenly abode where reigns the reincarnated god, a city given by Indra and built by Vishnukarn.' It is no surprise that the Guinness Book of Records registered it as the world's longest name for a capital.
